

When The Toys Wake Up At Night

1. When the sun's gone to bed
And the moon gives a smile,
Stars are sparkling white.
From the doll's house window
Shines a little light,
As the toys wake up at night.

2. Tiptoe out but quietly,
Nobody must hear.
Take a look, have a peep and
When the coast is clear...
Spin around, not a sound,
Nobody must see,
It's time to have some fun and games,
Which one will it be?
Spin around, not a sound,
Nobody must see,
It's time to have some fun and games,
Which one will it be?

3. When the sun wakes up
And the moon disappears,
Stars all drift away.
The toys on the shelf now sit very still
As the children come to play.
The toys on the shelf now sit very still
As the children come to play.
